Foreword From Dean

Assalamualaikum Warahmatullahi Wabarakatuh

Alhamdulillah, we are grateful to God because with His abundant grace and permission, on this occasion we can gather together on this beautiful day to make the 3rd International Graduate Conference of Built Environment and Surveying (GBES 2023): 'Innovating Solutions Built Environment and Surveying', organized by the Faculty of Built Environment and Surveying (FABU) Universiti Teknologi Malaysia (UTM). This conference is the third conference organized by FABU. This hybrid conference is held virtually and physically and is jointly organized by the Faculty of Built Environment and Surveying, Post Graduate Student Society, and Universiti Teknologi Malaysia.

This conference is a stage for academics, researchers and postgraduate students to discuss and share ideas based on the theme of "Innovating Solutions in Built Environment and Surveying" through the field of expertise in Built Environment and Surveying. This is also in line with UTM's new tagline which is "Innovating Solutions". The conference will emphasize the latest developments and identify areas that fulfill the future while providing an opportunity to promote faculty expertise and the latest innovations in various fields. Therefore, graduates of faculties, public and private universities, in and outside the country are given the opportunity to present and share their research results.

I hope that this conference will be beneficial to all of us in mainstreaming innovation in line with the emergence of the wave of technology and the era of the digital economy.

3rd INTERNATIONAL GRADUATE CONFERENCE OF BUILT ENVIRONMENT AND SURVEYING

Welcoming Remarks from General Chair

Assalamualaikum Warahmatullahi Wabarakatuh

It is an honor and privilege for me to welcome you, on behalf of the organizers of the 3rd International Graduate Conference of Built Environment and Surveying (GBES 2023). The conference is organized by the Faculty of Built Environment and Surveying (FABU) with the collaboration of Post Graduate Student Society), Faculty of Built Environment and Surveying (PGSS-FABU), Universiti Teknologi Malaysia. The conference is a sequel to GBES 2021 and GBES 2019.

UTM has always placed great emphasis on postgraduate students' academic success and professional skill development. I am therefore delighted to be able to give my full support to this conference. I do believe that this conference will serve as a platform to gain the most recent knowledge from both industrial and academic perspectives by sharing knowledge on best practices from the various disciplines of the built environment. This conference will offer an intellectually motivating and supportive platform for the exchange of ideas between postgraduate research students and get valuable formal feedback from scholars in the field.

I would like to thank all participants and the organizing committees of FABU and PGSS-FABU for making this event happen. It is hoped that GBES will continue to be a biennial meeting of postgraduate students especially those in the field of built environment and surveying researchers to share and exchange their knowledge and forge stronger research network partnerships.

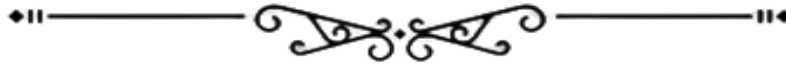

I wish you an excellent conference, full of inspiring ideas and interesting discussion!

Assoc. Prof. Ts. Gs. Sr Dr. Muhamad Uznir Bin Ujang

3rd INTERNATIONAL GRADUATE CONFERENCE OF BUILT ENVIRONMENT AND SURVEYING

Welcoming Remarks from Chairperson

I am delighted to welcome all delegates to the 3rd International Graduate Conference of Built Environment and Surveying (GBES 2023). The aim of this international annual conference is to gather young researchers and academicians, particularly postgraduate students to present and share their current research works and exchange ideas among themselves relating to the built environment and surveying fields of research.

The conference is organized by the Postgraduate Students Society (PGSS-FABU), Faculty of Built Environment and Surveying in collaboration with the Faculty of Built Environment and Surveying, Universiti Teknologi Malaysia. I would like to extend my heartiest and deepest appreciation to all who have worked very hard to make sure this conference is a huge success. I am honoured to thank the sponsors who have contributed their commitment to ensure the entire conference will have a very smooth flow.

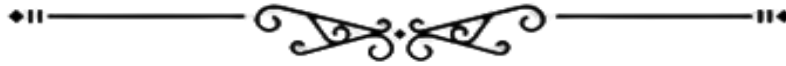

Hopefully, this conference will be one of the platforms for postgraduate students and researchers to share their research works and findings to ensure the continuity of research in the future through the publications. I wish everyone a successful and fruitful conference. Have a great time!
